

Application for Industry Association Representatives  
to Participate in the Study Group on Food and Consumer Safety

---

1. The time commitment for the Food and Consumer Safety Study Group participation is anticipated to be up to 12 hours per month. This includes time for meetings (face-to-face, videoconference, webinar and/or conference calls), reading and conducting research. Are you available and willing to make that time commitment? (Travel will be reimbursed at the state rates).
2. Please provide a description of your experience working in an industry that is regulated by public health agencies, and describe why you believe you are especially well-qualified to contribute to the work of this group.
3. How would you keep important constituents (for example, association membership, board members, affiliate groups) informed about the work of this group?
4. What interests/motivates you to participate in this group?
5. What do you perceive to be the benefits of participating in this Study Group?
6. Your signature below indicates that you have discussed your participation on the work group with any supervisor/employer and that the time commitment involved with membership in the Study Group is both understood and supported.
